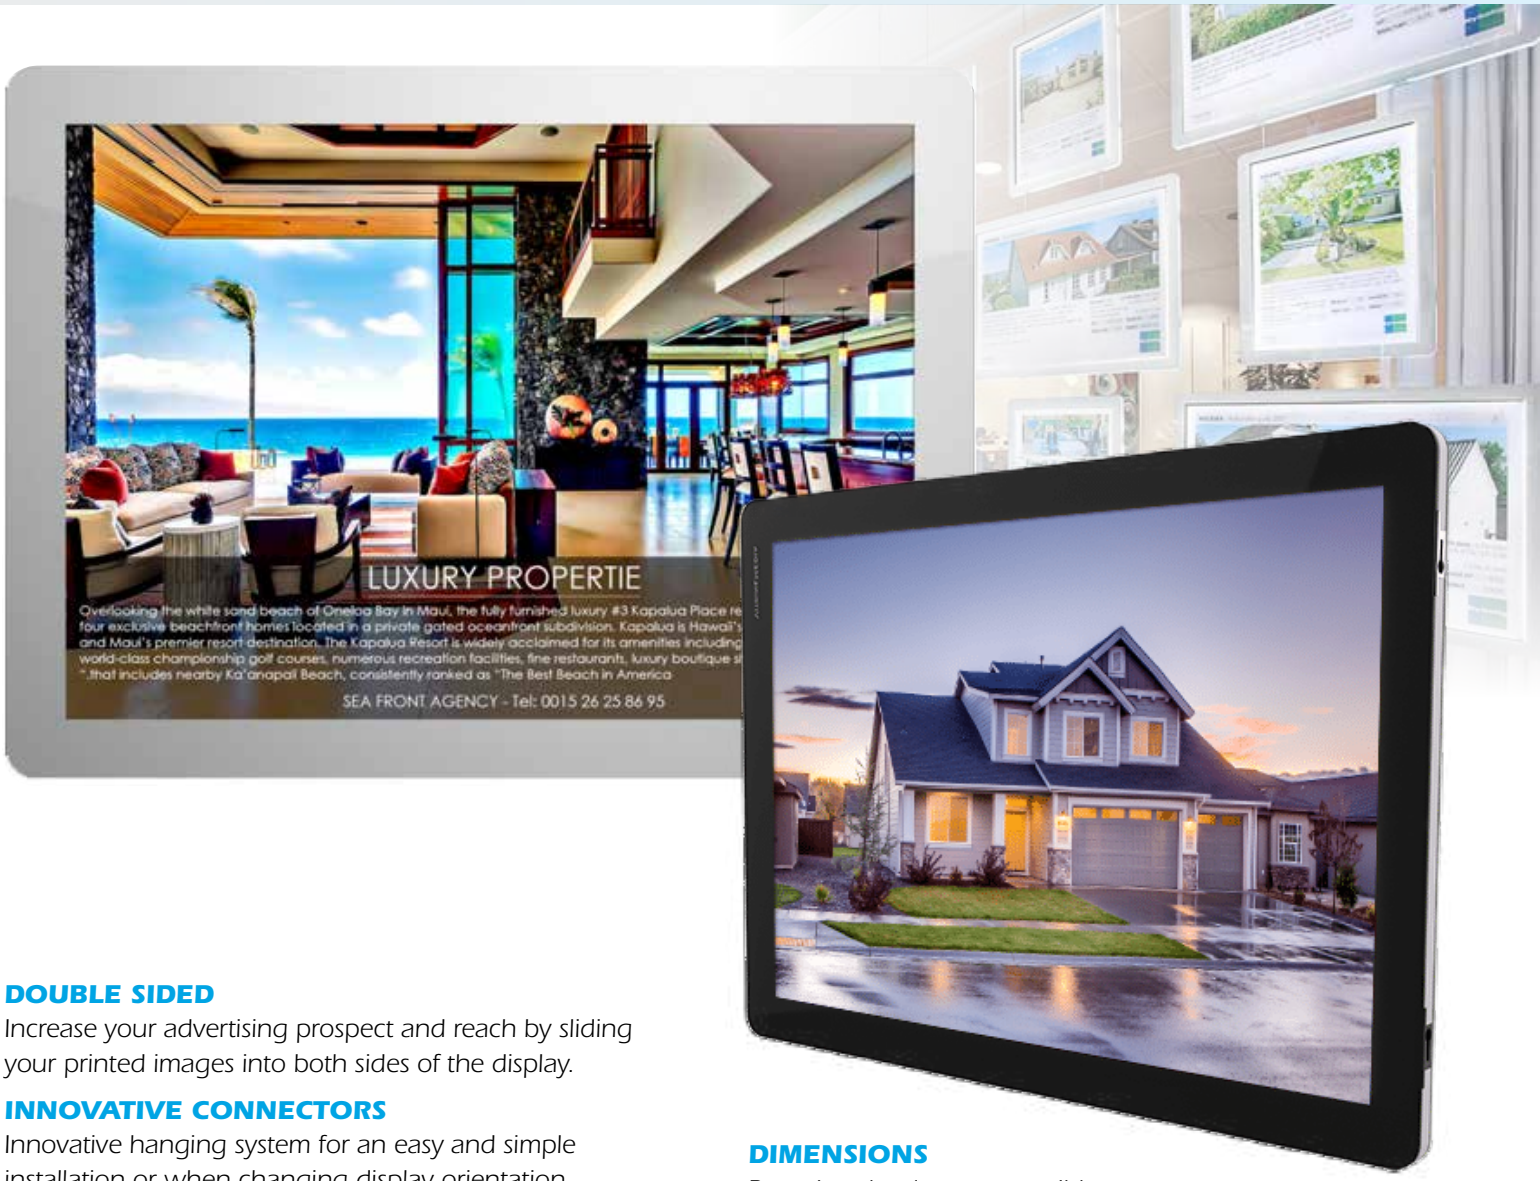
– 11" x 17" (8,5W)
– 20" x 30" (26W)
– 24" x 36" (27,5W)

LED POSTER HOLDER SYSTEMS

LED WINDOW DISPLAY



DOUBLE SIDED
Increase your advertising prospect and reach by sliding your printed images into both sides of the display.

INNOVATIVE CONNECTORS
Innovative hanging system for an easy and simple installation or when changing display orientation.

HIGH LUMINOSITY
With 5000 LUX, it's the brightest lightbox in the market today.

HYBRID ORIENTATION
Totally flexible with either landscape, portrait or even inclined layouts up to 90 degrees.

ULTRA THIN
Our displays take very little space as they are only 9mm thick – The thinnest in the market today

TECHNICAL SPECS
- Thickness 9mm
- Electric tension 24 Volts
- LED light intensity LED 5000 Lux
- Luminosity 3600 Lux
- Combine various panel formats
- Dual sided lit panel

DIMENSIONS
Portrait or landscape reversible

LED POSTER HOLDER SYSTEMS

LED POSTER HOLDER SYSTEMS

LED POSTER HOLDER SYSTEMS

LED WALL DISPLAY

LIGHT OUTPUT

Optimal, uniform light is provided by 100,000 points of light LED17A3. Our LEDs have a lifetime of 80,000 hours. Their brightness is up to 3600 lux (LED17A3), equal to 135 LEDs per metre. By contrast, an LCD screen only emits 300 lux making our displays up to 8 times brighter. Exceptionally low power consumption value - only 5W for a LED11A3.

LUMINATIVE FIXTURES

Goes from landscape to portrait thanks to the innovative fixture on bars.

TECHNICAL SPECS

- Thickness 9mm
- Electric tension 24 Volts
- LED light intensity LED 5000 Lux
- Luminosity 3600 Lux
- Number of LED 135 LED for an LED17A3 panel
- Combine various panel formats

DIMENSIONS

LED POSTER HOLDER SYSTEMS

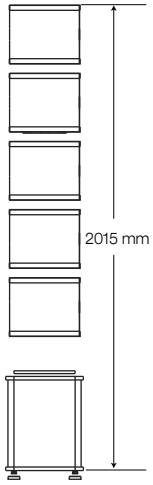
T-BOX

The T-Box is an innovative illuminated display concept ideal for store windows and reception areas. It offers all the advantages of column displays (brightness, durability, etc.) with none of the restrictions. The T-Box is easy to assemble and disassemble, with no tools needed. It comes with a compact, robust box for storage during transport. Light and transportable, it is a dual display, multi-format, tilting, swivel column unit. The innovative design of its mounting system allows a range of different screen models to be attached to the column: whether they be tilted, standard illuminated, document holders, etc. The height-adjustable base can also be customised with your corporate identity.

Modular

We offer a range of module types to meet your needs and customisation requirements. These modules will enhance your marketing material. The T-Box is modular and adapts to your business sector.



TECHNICAL SPECS

- Electric tension 24 Volts
- Luminosity 3600 Lux

BACKLIGHT PAPERS

A REMARKABLE PAPER FOR REMARKABLE COMMUNICATION

The Backlight, also known as "backlit paper", has been specifically designed to maximize the impact of your visuals in the LED poster holders.

It allows you to print your ads simply, guaranteeing you an extraordinary result. Your poster stands enhance your messages and the Backlight paper intensifies their impact.

This paper allows a homogeneous transparency that lets light through, so the visuals have bright colors and a beautiful brightness.

- **AVAILABLE FOR INKJET AND LASER PRINTERS**

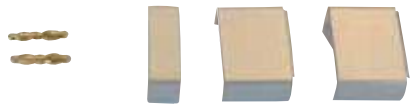
Components

RAILD2	Electric Rail (1.1m)
RAILA2	Electric Cable
LEDKIT2	Cable Kit
TRANSF60	Transformer 60W
TRANSF90	Transformer 90W
TRANSF150	Transformer 150W



RAILD2
This 43.25" aluminum rail track is designed to allow hanging your display panels at any point along the track. Connector pins, end caps and seam covers are included with each track allowing installers to connect multiple tracks together.

LEDKIT2
These steel cables act as conductors between each panel and are sold by pair. We offer three different cable lengths that will allow you to adjust the spacing between your panels to fit the size of your window display.

RAILA2
This cable allows you to connect your power supply to the rail.

TRANSF60
TRANSF90
TRANSF150
The transformers are 60W, 90W and 150W secured power supply. Transformers comes complete with AC cord and use 110V outlet.

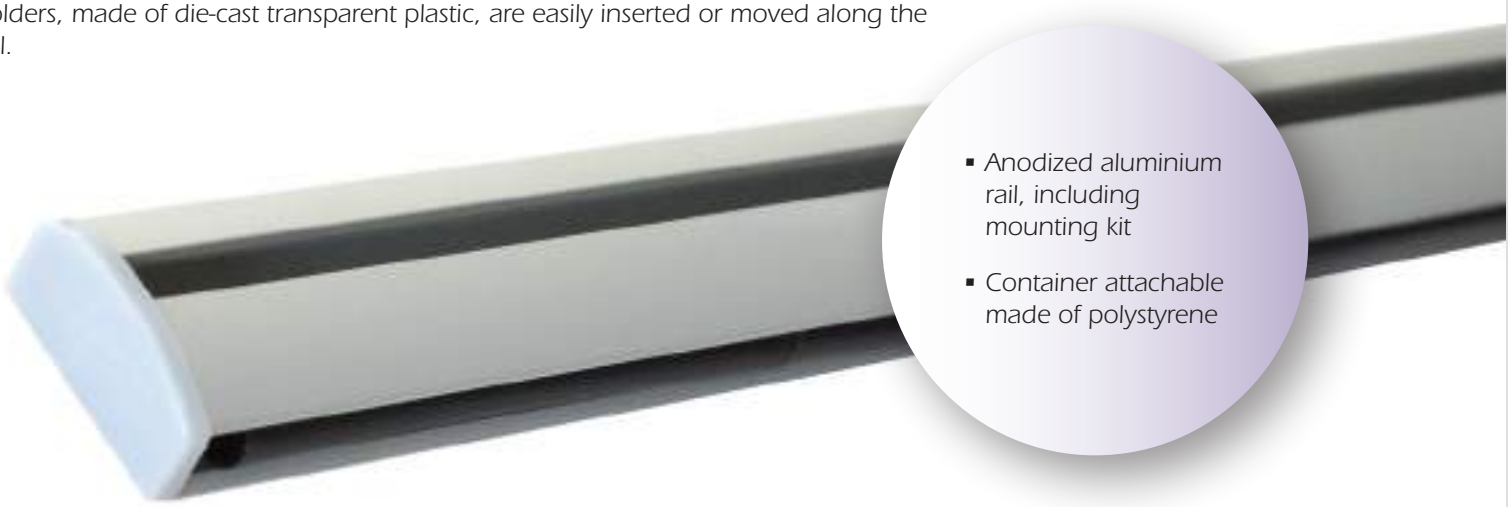
WALL MOUNTED BROCHURE HOLDER

WALL RAIL FOR SINGLE SHEETS OR BROCHURE HOLDER

Available in silver anodised aluminium as multi use: it can be a profile to hold brochure holders, or, a rail where you can insert and hold single sheets, notes, designs, quotes, projects. All stay in their place and on view, thanks to the refined design. To remove a sheet of paper simply fold it upwards and at the same time gently pull. The brochure holders, made of die-cast transparent plastic, are easily inserted or moved along the rail.



- Anodized aluminium rail, including mounting kit
- Container attachable made of polystyrene

Art and Picture Hanging Rail Systems

TABLE OF CONTENTS

Classic Rail + ... 147
Click Rail 150
Top Rail 154
Uniq Hanger 156

CLASSIC RAIL +

The Classic Rail + was developed for hanging heavy decorations with a weight of up to 100 kg. The securing of decorations (anti-theft) is optional with this system. Thanks to the open J-shape of the rods, decorations can be moved easily.

ART AND PICTURE HANGING RAIL SYSTEMS

CLICK RAIL

Integrating a flexible hanging system into your home interior is easily and quickly done with the Click Rail. In three simple steps, the rail is fastened to the wall; by hanging or sliding the wires into the rail with optional picture hooks, you create a flexible suspension of your decorations. When you choose the Primer finish of the Click Rail, you can paint it in the same colour as the wall.

CLICK RAIL

ART AND PICTURE HANGING RAIL SYSTEMS

TOP RAIL

The flexible picture hanging system Top Rail is mounted to the ceiling. This ceiling rail that is discreet in its dimensions is an ideal hanging system to use in combination with recessed ceilings. By mounting the ceiling rail to the wooden side strip of a recessed ceiling, the rail 'disappears' into the ceiling. This 'invisible' picture hanging system then offers a flexible way to hang, change and replace pictures and wall decorations throughout the entire room. The Top Rail is also suitable for mounting directly onto concrete ceilings.

TOP RAIL

RAIL

9.4313
- Top Rail (2m) - Brushed Aluminum (max. weight: 50 kg/m)
  (Installation 4 screws per meter)

INSTALLATION COMPONENTS

9.4913
- Screw - nickel-plated

9.4900
- Anchor - grey

For more information on wires and hooks, please refer to page 152.

Matrix Frame

MATRIX FRAME

APPLICATIONS

Retail

Increase the appeal of your shop windows and spread your messages through Matrix Frame with high-resolution and scalable canvases. Create a powerful business impact and deliver your messages with a stylish and scalable product. Take advantage of the complementary accessories available to introduce your products in an innovative way.

MATRIX FRAME

APPLICATIONS

Public

Enhance your decorations and deliver a legible and impactful message with our high resolution display solution. Adaptable to any place, thanks to a choice of wall installation, suspension or freestanding. Increase your visibility through a modern product that is eye-catching and easy to use.

Offices

Create a dynamic atmosphere and arrange your interiors by bringing them style with a solid and aesthetic design framework. Create original walls with a scalable frame and canvases with a high quality rendering. The profiles are resistant while the interchangeable canvases will follow the evolution of your interior decoration and the trends of the moment.

MATRIX FRAME

APPLICATIONS

Events

Let your imagination go in creating your booth with the many possibilities of Matrix Frame. Bring out your brands and offers with our easy to install and economical products. Renew your communication as you need it by changing the printed canvas as often as you like.

Museums

Set up your exhibition spaces and bring a touch of dynamism and modernity to your images. Personalize your content and be the forerunners in your field with your visitors. Your visuals will retain durability over time and will remain interchangeable for a very reasonable cost.

MATRIX FRAME

CONCEPT

AN ALUMINUM FRAME.
A PRINTED FABRIC.
ENDLESS POSSIBILITIES.

Tension fabric frames easy to install
with or without light box.

BENEFITS

QUICK CHANGE OF THE IMAGE

EASY TO ASSEMBLE

HIGHLY DURABLE SYSTEM

RECYCLABLE

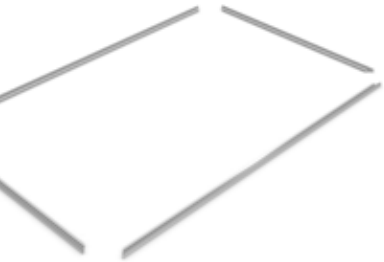
Applications

Wall mounted ▪ Self-supported ▪ Suspended

Matrix Frames can be made any size and almost any shape you want.

Use them as wall-mounted frames, hang them from the ceiling or make them double-sided, freestanding decorative dividers. No matter how you use them, Matrix Frames will catch the eye of any passerby!

Many customers trust Matrix Frame in various activity areas. Wether it is professional installers, national networks, museums and galleries or even interior designers, we will bring our expertise and offer you the best products.



MATRIX FRAME

STANDARD PROFILES

There are over 20 profiles in stock in our warehouses, produced from industry standard 6063T5 aluminum with a clear anodized coating or powder-coated in any color.

If you would like custom shapes for your special project, the Matrix Frame Research and Development department can create just about anything you can dream up.

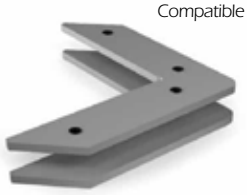
ANGLE CONNECTORS

Angle Connector 90°

Angle connector 90° (aluminum)
Compatible profile: 16
Thickness: 4 mm
0.048 Kg

Angle Connector 90°

Angle connector 90° (anodized aluminum)
Compatible profiles: 26, 32, 43 & 50
Thickness: 2x4 mm
0.090 Kg



Angle Connector 90°

Angle connector 90° (steel)
Compatible profiles: 100, 120 & 200
0.279 Kg

Straight Connector 180°

Straight connector (anodized aluminum)
Compatible profile: 16
Thickness: 4 mm
0.410 Kg

Straight Connector 180°

Straight connector (anodized aluminum)
Compatible profiles: 26, 32, 43 & 50
Thickness: 2x4 mm
Length: 15 cm
0.079 Kg

Straight Connector 180°

Straight connector (anodized aluminum)
Compatible profiles: 26, 32, 43, 50, 100, 120 & 200
Thickness: 50x26x8 mm
0.226 Kg

Straight Connector 180°

Straight connector (steel)
Compatible profiles: 100, 120 & 200
Thickness: 2x4 mm
Length: 50 cm
0.448 Kg

Steel bracket 90°

Bracket (steel)
Compatible profiles: 120 & 200
Thickness: 2x4 mm
0.187 Kg
